**Name:** Gary Stuckey  
**Job Title/Classification:** Project Manager (GS-0301-14)  
**Org. Code/Name:** WO-200 NIRMC  
**Telephone Number:** 303-236-2306

**Past Experience:**

Geologist, USGS, Denver, 3 years  
Manager, Private industry, 5 years  
Geologist, Craig District, 1 year  
Geologist, COSO, 2 years  
Supervisory Geologist, Tulsa FO, 9 years  
Business & Program Analyst, WO-Denver, 2 years

**Why you applied for the PM Training:**

Having served as manager for LR2000, I am keenly aware of the pitfalls of on-the-job-training in project management. I also realized the need for BLM to develop a cadre of trained managers who could "speak the language" and implement processes proven to lead to success. In my current position, I need to understand the project management processes in order to assist with the development and review of new project proposals.

**How would you rate the quality and content of the training you received:**

I am very pleased with the training. While quality and techniques varied among the instructors, it was generally high. Most importantly, many of them had actual PM experience to draw upon. The tools provided are already proving helpful.

**How do you anticipate using your new skills:**

I am applying the new skills to improve project proposals submitted for review and to assist in developing new IT proposals.
